

PILING CONDITIONS

This Policy shall not provide indemnity in respect of:-

(a) Foundation piles and/or casings and/or sheet pile constructions which are:

i) misplaced and/or mis-aligned

ii) lost or damaged during driving and/or extraction

iii) the subject of individual or block disconnection or declutching

for the purpose of this Policy loss or damage to foundation piles and/or casings and/or sheet pile constructions shall be deemed to have occurred during driving, extraction, disconnection or declutching unless the Insured can produce satisfactory evidence to demonstrate otherwise.

(b) Any leakage or infiltration of liquid or material at seams, joints, connections and/or beneath sheet pile constructions or into casings.

(c) Any abandoned piling work unless such abandonment is a direct consequence of other loss or damage for which indemnity is provided by this policy.

(d) Piles which have failed to pass a load test or to reach the required bearing load unless such failure is a direct consequence of other loss or damage for which indemnity is provided by this policy.

(e) Any dependence on revealed sub-standard installation work unless the design has been appropriately re-worked to suit.
